PAPER

**Please find below and/or attached an Office communication concerning this application or proceeding.**

The time period for reply, if any, is set in the attached communication.

<b>Office Action Summary</b>	<b>Application No.</b> 10/805,698	<b>Applicant(s)</b> BASILICATO ET AL.	
	<b>Examiner</b> Alfred Joseph Wujciak III	<b>Art Unit</b> 3632	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

This is the first Office Action for the serial number 10/805,698, BOOM DEVICE FOR PRESENTATION APPLIANCES, filed on 3/22/04.

***Election/Restrictions***

The traversal is on the ground(s) that “cross bar” does not create a separate utility. This is not found persuasive because “cross bar” is an additional element that put burden on examiner to search outside of art unit to find reference that teaches "cross bar".

The requirement is still deemed proper and is therefore made FINAL.

***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 3-4, 6-8 and 10-11 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 3, line 2, “midway” is indefinite because it is not clear where the midway is located on the apparatus.

Claims 4, 6-8 and 10-11 are rejected as depending on rejected claim 3.

***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 2-3 are rejected under 35 U.S.C. 102(e) as being anticipated by US Patent # 6,736,516 to Francis Kepley, Jr. et al.

Francis Kepley, Jr. et al. teaches a support stand apparatus comprising a first set of upright members (102,104) having a screen support location (112) and a second set of upright members (140) having a projector support location (126). The first set of upright members are horizontally positioned between the second set of upright members and the projection support location. The apparatus includes a top bar (128) attached perpendicular to a first member of the second set of upright members and a second member of the second set of upright members. The apparatus includes a boom arm (122,124) adjustably connected midway to the top bar. The projector support location is located at one end of the boom arm extending forward.

#### ***Allowable Subject Matter***

Claims 4, 6-8 and 10-11 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

#### ***Response to Arguments***

Applicant's arguments with respect to claims 2-4, 6-8 and 10-11 have been considered but are moot in view of the new ground(s) of rejection.
